Nicholas Ragland

Objective

This activity is to teach you the use of if-else statement.

Activity: weekdays

Write a code segment (**in C++**) using if-else to output the day in word based on the user given integer.

User input	day
1	Monday
2	Tuesday
3	Wednesday
4	Thursday
5	Friday

== → comparison (seeing if it's the same)

= → equals

① if dayNum was 1

② · Shout out Monday

otherwise=else ③ if dayNum was 2

④ Shout out Tuesday

⑤ if dayNum was 3

⑥ Shout out Wednesday

⑦ if dayNum was 4

⑧ Shout out Thursday

⑨ if dayNum was 5

⑩ Shout out Friday

⑪ *optional*

else

{ cout << "NOt a valid number";

}

```cpp
if (dayNum == 1)
{ cout << "Monday";

}
else if (dayNum == 2)
{
    cout << "Tuesday";

}
else if (dayNum == 3)
{
    cout << "Wednesday";

}
else if (dayNum == 4)
{ cout << "Thursday";

}
else if (dayNum == 5)
{ cout << "Friday";

}
```
